OUR HELPFUL SOLUTIONS FOR

PLANNING A WEDDING!

After DJing and emceeing more than 700 Weddings we've seen EVERYTHING and can safely say there are TWO reasons couples get confused and overwhelmed when it comes to planning their Wedding...

1. They don't have a solid plan for what to do each month to stay on track with planning a WHOLE wedding.
2. They didn't sit down to plan out and agree on their budget before they started spending money.

It might seem simple but the best strategies usually are. #1 and #2 really boil down to great communication, which is the crux of any successful relationship.....and planning a Wedding includes A LOT of relationships (the two of you, your families, friends, vendors, etc.)

Speaking of communication: if you have people (like parents) who are contributing financially to your wedding you HAVE to sit down with them to determine what their contribution means to them and to you.

Is the contribution just a gift and you're still in charge of all decisions? Or, do they expect to have a say in what you're doing and who you're hiring?

ACTION ITEMS

- What have you already done (if anything) for your Wedding? Make a list and check it off!
- Talk to anyone who is contributing financially to your wedding so you're clear on roles.

NOTES

OUR FAVORITE PLANNING TRICK

THAT WILL KEEP YOU ORGANIZED

We obviously LOVE a good Wedding Planning Checklist....you have ours in your hands right now :)

Something we don't love? When our couples are truly overwhelmed by how many little tasks there are when planning a Wedding. It's easy to become unorganized when looking at a checklist that is 12 MONTHS LONG.

Here's our favorite planning trick: ONLY use the portion of the planning checklist that applies to you THIS MONTH. If your wedding is 12+ months out, grab that checklist and put the rest of the checklist away...you don't need to even look at it!

Focus on the timeline you're actually in (12+ months out from the big day!) and complete that To Do List first.

Once you've checked all the boxes, you can move on to the next part of the Wedding Planning Checklist.

ACTION ITEMS

- Grab the part of the checklist that applies to your planning timeline
- Put the rest of the checklist in a safe spot and access it when you need it
- Check off any tasks you've already completed!
